Dispose of container and unused contents in accordance with federal, provincial, and local requirements.

NET WEIGHT: 12.4 KG
NET VOLUME: 10 LITERS

GENERAL INFORMATION

NEXUS LIQUID ZINC 7% is recommended to prevent and correct zinc deficiencies of field, row, vegetable, fruit, tree, vine, ornamental and turf crops. NEXUS LIQUID ZINC 7% alone, with pesticides, or with other fertilizers, may be applied directly to the soil or to the foliage of growing crops. NEXUS LIQUID ZINC 7% may be applied via ground sprayers (high-volume or low-volume), aircraft or fertigation systems.

CAUTION: This fertilizer contains zinc and should be used only as recommended. It may prove harmful when misused.

Manufactured for:

NEXUS Ag Business, Inc.

105-3502 Taylor Street East • Saskatoon, SK S7H 5H9
(306)373-2972

Manufactured by:

Monterey AgResources
P.O. Box 35000 • Fresno, CA 93745

DIRECTIONS FOR USE

Soil applications of NEXUS LIQUID ZINC 7% are recommended with nitrogen fertilizer solutions. Thorough coverage and wetting are needed for optimum foliar spray results. Actively growing plants with young leaves absorb foliarly applied NEXUS LIQUID ZINC 7% most efficiently. Immediate post-irrigation or post-rainfall application give the best foliar uptake.

COMPATIBILITY: NEXUS LIQUID ZINC 7% is compatible with most pesticides and fertilizers. However, if the desired combination has not been previously used, a compatibility test is recommended.

MIXING: Shake, stir, or swirl contents before using. Always add this product to the spray tank before adding pesticides.

SOIL APPLICATIONS FOR ALL CROPS

Soil Fertility Maintenance 2.5 L/Ha (1 L/acre)
Mild Deficiency 5 L/Ha (2 L/acre)
Severe Deficiency 10 L/Ha (4 L/acre)

Fertigation: Apply the recommended amount of product in split applications one to two weeks apart throughout the growing season.

FOLIAR APPLICATIONS FOR ALL CROPS

Applications should be separated by a minimum of 7-14 days. **Avoid** foliar applications of this product when plants are under moisture stress. **Avoid** foliar applications to deciduous tree crops during bloom.

Concentrate Applications: Use up to 2 liters of NEXUS LIQUID ZINC 7% in a minimum of 100 liters of water per acre.

Aerial Applications: Up to 1 liter of NEXUS LIQUID ZINC 7% per 20 liters of spray may be used, but more dilute solutions will improve coverage and results.

CONDITIONS OF SALE AND WARRANTY

NEXUS Ag Business, Inc. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated when used in accordance with the use directions under normal conditions.

The directions for use of this product are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as timing and method of application, weather and crop conditions, presence of other materials, or other influencing factors, all of which are beyond the control of NEXUS Ag Business, Inc. and Seller. Buyer and user acknowledge and assume all risks and liability resulting from the handling and use of this material not in strict accordance with directions given herewith. In no case shall NEXUS Ag Business, Inc. or the Seller be liable for consequential, special, indirect, or incidental damages or losses resulting from the handling or use of this product. The foregoing is a condition of sale by NEXUS Ag Business, Inc. and is accepted as such by the Buyer.

For more information on use of this product, please contact a professional agricultural consultant. This product should be used on the basis of a soil and/or tissue analysis.
